

Sprint 1 Stories Images

Story 1: Create a Scoped Application

Technical Specifications:

- Validate that your Scoped Application has been Created by selecting the Application Scope picker at the upper right-hand corner of your screen. Please see screenshot.

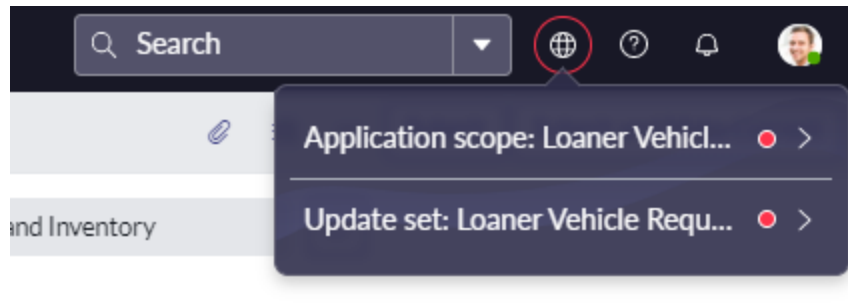

Story 2: Creating an Update Set

Technical Specifications:

- Make sure the Application field is set to the application you created on the previous Story. Please see screenshot.

A screenshot of a form titled "Update Set" with a subtitle "New record". The form has several fields: "Name" (with a blue border and the text "Loaner Vehicle Request 2"), "State" (a dropdown menu showing "In progress"), "Parent" (a text field with a search icon), "Release date" (a text field with a calendar icon), and "Description" (a large text area). To the right of the "Name" field, there is a yellow box labeled "Application" and a grey box labeled "Loaner Vehicle Request and Inventory". At the bottom of the form, there are two buttons: "Submit" and "Submit and Make Current".

- Validate that you are using the correct update set but going to the Application picker. Notice that the Update set section is now showing the Update set you created. Please see screenshot.

Story 4: Add fields to the Loaner Vehicle Catalog form.

Technical Specifications:

- Modify the Layout of this field so that it looks like the screenshot below.

Loaner Vehicle Catalog
New record

* Number	<input type="text"/>	* Vehicle Make	<input type="text"/>
* Status	<input type="text" value="Available"/>	* Vehicle Model	<input type="text"/>
* Vehicle Description	<input type="text"/>
